CHICAGO, November 25 .- For down right listicesness and inertia in the wheat market, the past week was the climax of the experience of several weeks. There scarcely anything doing in this market in a speculative way, and at other centres came the same story. Commis-sion men are complaining bitterly of lack of business. Nothing happened to sur the pulses of the trade and the immediate future looks barren of sensational features.

There was a failing off of he week. There was a failing off of he week. There was the smallest kind of trade, the corn pit, like those of the other cereals, being dult to the point of deadness. For that matter, speciality trade has been infinitesimal in colume for a fortnight. Where the corn comes from the farmers were placifly feeding their stock or storing their corn away in cribs for disposal at their own good time. At the other end of the line—out the seabound there was like possitivity. Clearances for the week were only 00 per cent. of those of the year before, at which thus those was nothing to brag about. Scarcity of labor has been brought forth to account partially for the slow marketing of corn. The countract stock is inconsiderably small, and holders of December contracts are not losing any sleen.

They wanted to adopt the little one, but Mrs. Mussina said that before doing so they must satisfy her debt to Mrs. Wutch. This, the Bachers could not do because of poverty. About this time Mrs. Wutch chiained living apartments in Garfield, a Passale suburb. She proposed that Bacher, a small coal dealer, move her goods and take the child as payment, thereby relieving her of considerable expense and clearing the Mucaina woman of her indebtedness. The idea was adopted.
